

Product Announcement

Biffi Morin EHP Actuators

FOR YOUR INFORMATION

Product Notice

Obsolescence of Biffi Morin EHP Actuators
PRO-2023-0003

March 1, 2023

Dear EHP Customer,

After careful consideration of our portfolio and product offerings, we have decided to discontinue the Biffi Morin EHP product, effective immediately.

All current orders will be fulfilled, and open quotations will be valid per their respective terms. Please note that we will continue to supply and service Biffi Morin HP series actuators.

Emerson offers a wide range of electric, pneumatic, and hydraulic actuators. Please consider our **Bettis SEHO and EHO actuators for ¼ turn applications**, where an electro-hydraulic mechanical failsafe is required, and electric power is available.

Literature and Technical Information

For questions or concerns, please contact me per my contact information below or visit the Emerson website.

Thank you for your continued commitment to our products, and we look forward to addressing your future actuator and process control needs.

Sincerely,

Håkon Espvik
